PROJECTS

Registrar Records and Document Management System for University of Nueva Caceres (Capstone) — [Github](#)

- Developed a Records Management System for our University's Registrar Office.
- Presented the system to the University for potential integration.
- Spearheaded the development of the front-end aspect of the system.
- Collaborated with two other Developers to develop the project.

rtnn.Mango (Portfolio Website) — [Github](#) || [Website](#)

- Designed UI of both the Mobile and Desktop layout from scratch using Figma.
- Implemented animations for better presentation.
- Improved the *lighthouse* and *pagespeed* analytics by nearly 100% for better user experience

Shortly (Recent Personal Project) — [Github](#) || [Website](#)

- Responsive four-page URL Shortening website.
 - Utilized API from bit.ly to handle the task.
 - Improved the project by designing and developing additional pages.
 - Enhanced the analytics by nearly 100%, significantly elevating the overall experience
-
