kim.oliver.manga@gmail.com • [Linkedin](#) • [Github](#) • (63) 945 256 7613

SKILLS

Front-end: React, SCSS, Responsive Design, HTML5, CSS3, JavaScript, UI Design, GSAP

Tools: Figma, Git

PROJECTS

OptiMG (Recent Side Project) — [Github](#) || [Website](#)

- Developed an image compression and format conversion website for developers and designers to use.
- Designed a user-friendly UI using Figma, ensuring a seamless and visually appealing experience.
- Integrated *Tinify* npm package for efficient compression and utilized *Cloudmersive* API for smooth format conversions.
- Optimized the site performance to nearly 100% using *Lightspeed* and *PageSpeed Insights*.

rttn.Mango (Portfolio Website) — [Github](#) || [Website](#)

- Created a sleek and minimalist UI with Figma, ensuring a clean and modern user experience.
- Implemented modern animations using GSAP, enhancing the site's immersive and dynamic appeal.
- Improved the website performance to nearly 100% using *Lightspeed* and *PageSpeed Insights*.

RRDMS - UNC (Capstone) — [Github](#)

- Developed an expansive Records Management System encompassing the entire college level with more than 1000 students at that time.
 - Presented the system for university-wide integration, showcasing its potential impact.
 - Re-designed the UI twice for an enhanced user-experience.
 - Collaborated with a team of two developers to deliver the project successfully.
-
