PROJECTS

Registrar Records and Document Management System for University of Nueva Caceres (Capstone) — Github

- Developed a Records Management System to aid the University Registrar's Office.
- Presented the system to the University for potential integration.
- Re-designed the UI two times to enhance the user-experience.
- Collaborated with two other Developers to develop the project.

rttn.Mango (Portfolio Website) — Github || Website

- Designed the UI for both Mobile and Desktop using Figma.
- Implemented animations for a better immersion.
- Improved the website performance to nearly 100% using *Lightspeed* and *PageSpeed Insights*.

Shortly (Recent Personal Project) — Github || Website

- Enhanced a simple URL Shortening landing page challenge from *Frontendmentor*.
- Utilized a third-party API from bit.ly to handle the task.
- Revamped website by designing and developing additional necessary web pages.
- Enhanced the performance by nearly 100%, significantly elevating the overall experience
